## Harmonious Living

### Atmosphere, Entertainment, Communication & Security

Step in the door, relax and enjoy! Experience your home with one touch convenience. The Jacques Lifestyle Automation System ensures complete yet simple control of your atmosphere, environment, entertainment options, voice communications and security monitoring. Stylish and customisable touch screens in desired locations enable you to control your air conditioning, heating, lighting and window coverings by simply touching the necessary icons.

The Jacques Lifestyle Automation System uses the latest computer technologies to conveniently and reliably deliver your atmosphere, entertainment, communication and security requirements, every time! Want to watch a movie, listen to music or play a game? Navigate your video and music library, select and watch or listen.

The Jacques Lifestyle Automation System is not only a technologically advanced entertainment and control system, it also enables VoIP voice communication functionalities between all rooms in the home.

Home security is important to ensure a hassle free life and peace of mind. View internal, external CCTV surveillance cameras from your living room via the Lifestyle Automation touch screen. The system has the capability and flexibility to provide additional security options including; access control, alarm monitoring and public address functions as desired.

Your Jacques Lifestyle Automation System can easily be customised to suit your requirements and its design allows for seamless integration with your home to provide you with the features to live harmoniously.

## Touch Screen Control

## Lifestyle Automation

Each Jacques Lifestyle Automation System has the flexibility to be customised to suit your lifestyle at sea. The multimedia servers, lighting, atmospheric controls and security options ensure your system works exactly how you like it. Conveniently located touch screen control panels ensure ease of use.

### Environment Control

Turn on, off or dim lights in any room, turn on your bedside reading lamp and adjust the brightness, ensure all lights are off when a movie is played or activate all lights in the home in a security situation, from any touch screen. Similarly, air conditioning and heating can be activated and adjusted from these touch screen control panels. The choice and flexibility is virtually unlimited.

### Information

As a one touch source of information, the Jacques Lifestyle Automation System can provide location, weather and maps. Menu and timetable information allows family to upload daily menu options and activities. Clocks and calendars can also be accessed. The message waiting function can allow your family members or guests to send a personalised message to your room.

### Entertainment

Feel like watching a movie in the media room or listening to your favourite CD on the back deck while entertaining guests? Search, select and play your media files via your touch screen control panel. The onboard media server has the capability to deliver many simultaneous multimedia channels on demand.

### Onboard Security

Security monitoring from any touch screen in the home will provide you with peace of mind. View CCTV cameras and provide access control for complete control.

### Personalise

Personalise and customise your touch screen control to just the way you like it. Select photos to display as your screen saver, activate 'Do Not Disturb' for an uninterrupted afternoon nap, the choices are plentiful!

## Voice Communication

Speak to your family by telephone from the privacy of the master bedroom Or alternatively, hands free intercom slave stations can be conveniently located in the kitchen, back deck and dining room, in fact anywhere, to enable your family to communicate quickly and easily with each other. Timely, convenient communication when you require it!

### Telephone Handsets

Telephone handsets are available for living rooms, kitchens and bedrooms to provide privacy to callers. Each handset has the capability to call other rooms, intercom stations, the galley or the captain on the fly bridge, just like you would in a hotel! Handsets can be chosen to compliment your décor and interior design.

### Intercom

Mum fixing lunch or busy in the home may require hands free communication should a call be received from somewhere in the home. This is achievable via the Jacques IP Video Intercom monitor stations or VoIP Slave Intercom Stations. These intercom stations can be customised to

suit your requirements and are available in a variety of styles and finishes.

### Public Address

Public Address features are a necessary safety requirement. The Jacques PA System enables PA announcements to be made via the master station or telephone should the need be required. Scheduled announcements, evacuation warnings and horns can be broadcast via the PA system. The audio quality of the Jacques PA System is guaranteed to be clear and concise, providing crystal clear announcements.
