IPARTNA
PROGRAM
JACQUES

IPARTNA BY
JACQUES TECHNOLOGIES

Welcome to IPartna, powered by Jacques Technologies. The comprehensive training program designed to enhance your skills and knowledge, so you can sell, install and maintain our systems with confidence. Our goal is to equip you with the tools and expertise to confidently offer Jacques Integrated Communication Systems to your customers, exceeding expectations and boosting your bottom line.

All the TRAINING, SUPPORT & KNOWLEDGE so you can be a JACQUES GENIUS like us.

LEVERAGE THE POWER

IPartna, online training program offers courses covering our 650 and hybrid communication systems. From system introduction to advanced configuration, each course provides step-by-step instruction, engaging video tutorials, informative documentation, and insightful brochures. Once you complete the online modules, you can further enhance your knowledge via our optional, tailored one-day course at our head office. Embark on the IPartna program and become an accredited Jacques technician today.

MASTER THE METHODOLOGY

At Jacques Technologies, we believe in engaging our customers throughout the development process, whether it's software or hardware. Our proven development methodology ensures clarity, sets clear objectives and deliverables, and keeps us on track with agreed time frames. By enrolling in the IPartna program, you gain unprecedented access to our product development roadmap. This empowers you to align your business' strategic planning and growth with Jacques' program for developing and releasing new products.

SOFTWARE CUSTOMISATION & INTEGRATION EXPERTISE

With Jacques Technologies, you can influence and shape the ongoing development of our software. Your involvement ensures that required features and functionality are included, evaluated, and delivered to meet your project's timeframes and outcomes. As we conceptualise, design, develop, and test all our software in-house, we are uniquely positioned to respond to your project requirements and provide software customisation.

CERTIFICATION: UNLOCK OPPORTUNITIES

Completion of any of our courses grants technicians Jacques Accredited Technician status, specific to the related system (650 series and/or hybrid). Accredited Technician status comes with a range of benefits:

- Certificate of accreditation for each completed course
- Jacques accredited technician logo for your use
- Ongoing access to our online training system
- Technician accredited listing on www.jacques.com.au
- Priority and free support ticket resolution

PRESERVE YOUR BOTTOM LINE

Becoming an Accredited Technician showcases your expertise to customers, assuring them of your ability to install and maintain Jacques' systems with confidence. Increased knowledge among your technicians improves labour utilisation during installation and commissioning, ensuring confident project quoting and labour management that preserves your margin.

TECHNICAL SUPPORT:
ASSISTANCE AT YOUR FINGERTIPS

Our support portal grants you 24/7 access to our knowledge base, empowering you to find answers to your questions at any time. With an extensive library of frequently asked questions and helpful configuration videos, our self-help resources provide valuable assistance. Should you need further guidance, our Australian-based support team — with their comprehensive knowledge of our systems — is always ready to assist. Count on us to resolve any onsite problems or configuration queries promptly.

Discover the opportunities with Jacques Technologies as an associated technician. Together, let's unlock your potential and achieve unparalleled success.
