

## Overview

---

A dedicated graphical user interface for Jacques Non-Contact Visits System. Communication over intercom booth pairs is supervised using the Non-Contact Visits System graphical user interface (NCV GUI) ensuring ultimate call control.

Facilitates group or single endpoint Public Address (PA) announcements, intrude and instant playback of recorded audio files and call monitoring from any master station within the network, ensuring a cooperative prisoner visiting environment.

## Features

---

Dedicated NCV/CV system control GUI module

Enable/disable booths

Connect/disconnect booth calls

Monitor or intrude on booth calls

Make PA announcements to booths
