

## Aditya Januar

This is Aditya. Aditya is our storeperson, he works in our dispatch area making sure all of our orders get sent out on time and that all of our stock is stored properly. Aditya came to Australia from Indonesia when he was 18 to study IT at Griffith, and to improve his English.

Dia datang ke Australia karena universitas di sini merupakan salah satu yang terbaik di dunia, dan juga karena letaknya yang dekat dengan negara asalnya.

While at university he was part of the Indonesian Student Association, who were involved in organising festivals celebrating Indonesian culture. His first job was working as a kitchen hand in an Indonesian restaurant while he was still studying. Aditya is a keen cook, and his favourite food from back home is chicken satay skewers. He claims he can eat 100 of them all by himself. He even gave our marketing assistant his first taste of beef tongue.

After he graduated he worked for Polymorphic Solutions, DHL and Auscabs. Here he gained experience in customer support, IT and logistics.

Aditya menyukai gaya hidup di Australia yang terbilang bebas, dan juga karena cuacanya yang tidak berbeda jauh dengan di Indonesia.

Aditya was recently back home in Indonesia with his wife Indie and their new-born son Austin. Austin's name actually comes from the amalgamation of Australia and Indonesia. Much of Aditya's family got to meet Austin for the first time. They spent most of their trip in Jakarta, Aditya's home town, but they also visited Bandung and a popular tourist area in the high terrain called Lembang. There the family visited a horse ranch and even went on a ride on a horse drawn cart.

Aditya is an integral part of the Jacques team and we're very glad to have him on board!
