

## Brandon Chai

This is Brandon. Brandon works as a technical support officer here at Jacques. Brandon started here in July 2010 and is an integral part of our team, he provides technical support to our customers online, over the phone and onsite. Brandon was born in Kuala Lumpur in Malaysia, coming here to study a bachelor of IT at the University of Southern Queensland.

Ketika dia pertama kali datang ke Queensland, dia

suka hidupan liar di sini dan tidak lama lagi jatuh cinta dengan cuaca dan gaya hidup yang selesa di Queensland. Brandon mempunyai saudara mara di Australia. Ibu saudaranya dan beberapa sepupu yang tinggal di New South Wales dan Victoria.

He still enjoys some things from home, he often cooks Nasi Lemak, chicken with rice and brings it into work for lunch. He also enjoys being able to speak Cantonese with our assembler Kimmy. Brandon first became interested in electronics when he saw a display home with home automation, from there he read everything he could about software and hardware.

Dia suka Jacques sebab Jacques telah memberikan beliau peluang untuk belajar perkara-perkara baru, menimba ilmu dalam bidang elektronik, dan melanjutkan kerjayanya di masa hadapan.

On a personal level Brandon also feels like he's part of a big family here at Jacques. We're glad to have you in the family Brandon!
